SUMMARY

Born and raised in Milwaukee Wisconsin with a lifelong passion for engineering, space, and a deep admiration for the ocean. Currently attending the Milwaukee School of Engineering for a B.S. in Mechanical engineering in the pursuit of better understanding the functions that make our world work.

EDUCATION

B.S. Mechanical Engineering; minor in aerospace engineering | Milwaukee School of Engineering | August 2025 – Current

GED/Dual Credit | Concordia University | Mequon, Wisconsin | GPA: 3.4 | August 2022 - June 2025

PROJECT EXPERIENCE

MSOE NASA Lunar Robotics | Excavation Design Lead | Design, manufacture, test, and operate a rover built to traverse the moon; specially designed to mine and transport lunar regolith.

- Researched various mechanisms used in extra-terrestrial applications to ensure efficiency
- Spearheaded innovative dig systems which led to an increase of 130% in potential regolith capacity
- Manufactured and physically tested multiple system designs to obtain most optimal
- Competed in international competition set by NASA against other collegiate teams

MSOE NASA Lunar Robotics | Secretary| Acted in a secretarial position leading a team of 70 people.

- Worked with president, vice president, and project manager to design team structure
- Managed internal affairs for team; ensuring an enjoyable yet functionally optimal team experience
- Worked with university & external sources to garner funding & component sponsorship
- Used programs such as Microsoft Office Suite and Jira to meet deadlines & keep team organized

TECHNICAL SKILLS

Software: SolidWorks, Onshape, MATLAB, Discreet Element Modeling, Microsoft Office Suite, Jira
Technical: Manufacturing, Construction, CNC, Machining, Mechanical Repair, Soldering
Miscellaneous: Project management, Rapid Prototyping, Systems Engineering, Verification & Validation

LEADERSHIP EXPERIENCE

Head Curriculum Developer | MSOE Honors Program | August 2025 - Current |
Worked with MSOE and Wisconsin DOC to design STEM focused rehabilitation classes for current inmates
Tallship Crew | World Ocean School | July 2024 - January 2025 |
Worked on the US Dennis Sullivan as a deckhand & navigator. Sailed in the Atlantic Ocean and Caribbean Sea
Lead Instructor | Milwaukee Community Sailing Center | May 2023 – August 2025
Taught the physics and skills involved in sailing to a verity of skill levels and ages

WORK EXPERIENCE

CREATE Fellow | Milwaukee School of Engineering | May 2026 – Current | 10 Hrs per wk
Lead instructor & Boat repairman | Milwaukee Community Sailing Center | April 2024 – August 2025 | 0-40 Hrs per wk

INTERESTS

Rock climbing | Mechanical tinkering | Sailing | Aerospace | Extra-terrestrial Permanence |
